

Problem Set 3

Haocheng Yang

February 13, 2023

- 1 1. How big was the insurance .csv file (once uncompressed)?
(i.e. what was the output in 3(e)?)**

The size of the file is 5MB

- 2 2. How many lines did the CSV file have before doing the
end-of-line (EOL) conversion? (see 3(g))**

The number of lines before EOL is "0"

- 3 3. How many lines did the CSV file have after doing the
EOL conversion? (see 3(j))**

The number of lines after EOL is "36,634"
